

## Europass Curriculum Vitae

### Personal information

First name(s) / Surname(s) **Francesco Ponziani**

Address

Telephone(s)

Fax(es)

E-mail(s)

[fponziani@regione.umbria.it](mailto:fponziani@regione.umbria.it); [francesco.ponziani@gmail.com](mailto:francesco.ponziani@gmail.com)

Nationality

Date of birth

Gender

**Employment** **geologist, geophysicist**

**Occupational field**

**Hydrogeological and seismic risk assessment: Landslide Early Warning Systems development; seismic – accelerometric networks; active and passive seismic prospecting: refraction seismic tomography, down – hole, cross-hole, HVSR surveys, vibrometric monitoring, landslide monitoring network.**

**Actual position**

**Officer at the Regione Umbria - Civil Protection Agency - Functional Center: Natural risks monitoring and evaluation**

**Main responsibilities:**

- Assessing the alert state with regard to the hydrogeological risk over the regional territory (Umbria Region, Italy) at daily base;
- Project and development of Early Warning Systems for landslide risk at regional and local scale, and web based dynamic landslide scenario tool;
- Technical responsibility for the National Department civil Protection Agency Accelerometric Network development and dynamic monitoring of relevant buildings in Umbria.

### Work experience

Dates JUNE 96 - JUNE 03

Occupation or position held Independent consultant (1); free lance geophysicist (2);

Main activities and responsibilities

- (1) mainly involved in planning and execution of microzonation projects supporting the reconstruction after the 1997-2000 seismic crises in Umbria (Central Italy); planning and running of seismological and accelerometric networks; development of seismic databases;  
- (2) surface and bore-hole seismic prospecting for underground exploration; vibration monitoring for road traffic and quarry blast activity; project and realization of instrumentation for seismic prospecting; acquisition of seismic and geochemical data in volcanic areas;

Name and address of employer

*Local Governing Body, Regione Umbria, P.zza Partigiani 1, 06100 Perugia (1); private companies, National Institute of Geophysics and Vulcanology, Via di Vigna Murata, Roma (2)*

Type of business or sector

Applied geology, geophysics

Dates	01/06/2003 - 01/06/2008
Occupation or position held	Geological Office, Directive Functionary
Main activities and responsibilities	<ul style="list-style-type: none"> <li>- Technical responsibility for microzonation projects;</li> <li>- development of local and national seismic codes;</li> <li>- development and managing of the local seismic network;</li> <li>- geophysical data acquisition and elaboration</li> </ul>
Name and address of employer	Local Governing Body, Regione Umbria, P.zza Partigiani 1, 06100 Perugia (1); private companies, National Institute of Geophysics and Vulcanology, Via di Vigna Murata, Roma (2) 96, Corso Vannucci, 06121 Perugia (Italy)
Type of business or sector	Regional Local administration
Dates	01/06/2008 →
Occupation or position held	Civil Protection Office Directive Functionary
Main activities and responsibilities	Assessing the hydrogeological risk at regional scale; design and implementation of Early Warning Systems for the hydrogeological risk; technical responsibility for the National Department civil Protection Agency Accelerometric Network development and dynamic monitoring of relevant buildings in Umbria
Name and address of employer	Regione Umbria 96, Corso Vannucci, 06121 Perugia (Italy)
Type of business or sector	Local Public Administration
<b>Education and training</b>	
Dates	1994 - /1995
Title of qualification awarded	Post Doctoral Grant
Principal subjects / occupational skills covered	Seismic data processing; Definition of geodynamic models by organization of crustal seismic data integrated with geologic and petrologic methodologies and data
Name and type of organisation providing education and training	Institute for the Reduction of the Seismic Risk - National Council of Research, (Ministry of Scientific and Technological Research) 15, Via Bassini, 02 Milano (Italy)
Level in national or international classification	ISCED 6
Dates	1990 – 1994
Title of qualification awarded	P.H.D.
Principal subjects / occupational skills covered	Crustal seismic <i>Thesis title:</i> "Digitalization and reinterpretation of crustal seismic data: hypothesis for a geodynamic model of Northern Tyrrenian - Central Italy" - digital seismic data processing, interpretation and use of computer applications for the development of geological-geodynamic models; planning of refraction - wide angle reflection surveys for crustal studies; study of geothermal areas.
Name and type of organisation providing education and training	Institute for the Reduction of the Seismic Risk - National Council of Research, (Ministry of Scientific and Technological Research) 15, Via Bassini, 02 Milano (Italy)
Level in national or international classification	ISCED 6 ( national level - Dottorato di Ricerca)

Dates	1989																																								
Title of qualification awarded	Degree in Geology																																								
Principal subjects / occupational skills covered	geological, geophysical and geochemical methods aimed to the identification and the study of geothermal areas																																								
Name and type of organisation providing education and training	Department Of Earth Sciences (University) 1, Piazza dell'Università, 06100 Perugia (Italy)																																								
Level in national or international classification	ISCED 5A																																								
<b>Personal skills and competences</b>																																									
Mother tongue(s)	<b>Italian</b>																																								
Other language(s)
