C

EDUCATION AND TRAINING

01/07/2016 – 01/05/2020 – Rome, Italy

PhD in Public Health and Health Systems

Università Cattolica del Sacro Cuore

Subjects covered

- Preventive Medicine,
- Epidemiology
- Health systems
- Health Promotion,
- Global Health,
- Population Medicine
- Healthcare,
- Healthcare planning (Systems, Networks and Pathways),
- Healthcare systems comparison,
- Public reporting

Skills acquired: project management, research management, quality assessment, confidence with epidemiological surveys, data presentation at national and international level, healthcare management; Literature review, drafting reports.

PhD | THE IMPACT OF MIGRATION AND DISPLACEMENT ON HEALTH SYSTEMS. A COMPARISON ANALYSIS OF 4 COUNTRIES MON | EQF level 8

07/07/2012 – 28/06/2017 – Rome, Italy

Specialty in Hygiene and Preventive Medicine with honors

Università Cattolica del Sacro Cuore

Degree Mark: 50/50 with honors

Subjects covered

- Preventive Medicine,
- Immunization
- AMR
- Health Promotion,
- International Health Regulation
- Global Health,
- Population Medicine and Healthcare,
- Healthcare planning (Systems, Networks and Pathways)
- Healthcare systems comparison,
- Public reporting
- HTA

■ Skills acquired: quality assessment, confidence with epidemiological surveys, data presentation at national and international level, healthcare management; Literature review, drafting reports. Epidemiological studies coordination, biostatistic analysis, HTA, performance evaluation

EQF level 8

01/10/2005 – 19/07/2011 – Rome, Italy

Degree in Medicine and Surgery with honors

Università Cattolica del Sacro Cuore

- Degree mark: 110/110 with honors
- Subjects covered: Medicine and Surgery (with particular interest to general surgery)
- Skills acquired: clinical skills, epidemiology, health communication, clinical research

EQF level 7

01/10/2007 – 31/07/2008 – Cadiz, Spain

ERASMUS project

Universidad de Cadiz, Faculty of Medicine

- Subjects covered: Medicine and Surgery (with particular interest to internal medicine, pneumology and surgery)
- Skills acquired: spanish speaking, clinical skills, health communication, basic science research

NETWORKS AND MEMBERSHIPS

Memberships

- European Public Health Association (since 2012)
- Italian Hygiene and Public Health Society (since 2014)
- Italian Medical Management Society (since 2012)

WORK EXPERIENCE

15/04/2019 – CURRENT – Rome

Public Health Medical Doctor - Responsible for PHC Innovative Models in the city of Rome

Roma Local Health Authority

Responsible for Primary Health Care Innovative Models

Specific tasks:

1. Support for the strategic governance of primary health care and assistance services throughout the Health Authority
2. Support for the homogenization of processes and procedures among the six city health districts
3. Support for the activities and coordination of the Local Group for the COVID-19 Emergency Preparedness and Response in the City of Rome

4. Coordination of the activities of the PHC Taskforce for the covid emergency preparedness and response
5. Development of PHC Territorial Coordination Centers in the City of Rome
6. Coordination and implementation of the School Workforce Covid19 Testing Campaign
7. Development and coordination of Covid 19 Emergency Preparedness and Response Team for the Schools of Rome
8. Coordination of the COVID19 vaccination campaign
9. Support for the internationalization processes and scientific enhancement of Local Health Authority activities

01/04/2018 – 01/04/2019 – Copenhagen , Denmark

World Health Organization Consultant

Migration and Public Health Programme - Division of Policy and Governance for Health and Well-being

Coordination and Production of the European Refugee and Migrant Health Report (ERMHR) 2018.

I have been involved to coordinate the research process, to collect evidence and epidemiologic data, to liaise with authors, to plan data collection as well as to make analysis in collaboration with the Migration and Health Programme's technical officers and coordinator. In particular:

- I am coordinating the project
- I am supporting the development of the European Refugee and Migrant Health Report 2018
- I am collecting the available evidence
- I am assembling all the inputs from the experts involved, analysing data received from Member States.
- I developed the ERMHR index, the budget, the report outline.
- I am providing technical and programmatic feedback to the author, also liaising with epidemiological consultants and authors involved.
- I implemented the results obtained by the 'Questionnaire to monitor the implementation of the Strategy and action plan for refugee and migrant health in the WHO European Region' in order to present them at WHO Euro Regional Committee in September 2018.

Copenhagen, Denmark

01/07/2017 – CURRENT

Scientific manager and co-owner

Athena SRL

- Scientific management of the company
- Data collection
- Data Analysis
- Epidemiologic studies
- Systematic reviews
- Scoping reviews
- Cost- Effectiveness Analysis
- Technical evaluation of patents' portfolio (Università Campus Biomedico - Rome)
- Liaison with Investment funds
- Advisor for Early HTA implementation
- Scientific Technology Assessment

Rome, Italy

01/07/2016 – 01/05/2020 – Rome - Copenhagen

PhD in Public Health and Health Systems.

Università Cattolica del Sacro Cuore

- Public Health,
- Epidemiologic study design
- Coordination and production of reports based on literature reviews for the World Health Organization
- Coordination of research projects with a focus on leadership in Healthcare
- Systematic reviews of literature (topics: leadership in healthcare, immunization, population medicine, migrant health);
- Writing scientific papers on this topic
 - Public Health genomics,
 - Immunization
 - Value in healthcare
 - Population medicine
 - Personalized prevention,
 - Health system construction,
 - Chronic Diseases,
 - Clinical Pathways.

Furthermore, I'm currently coordinating the scientific activities of the World Health Organization Collaborating Centre (WHO CC) for Health Policy, Governance and Leadership in Europe". In December 2015 for a period of four years, the Institute of Public Health of the Università Cattolica del Sacro Cuore (UCSC), where I work, was designated a WHO CC in order to support WHO Europe in studying collaborative governance mechanisms in different policy areas with particular interest for the results of leadership for health. The WHO CC for Health Policy, Governance and Leadership in Europe aims at systematising best practices in order to provide evidence that will help WHO Europe in supporting policy makers at EU level in developing better healthcare policies.

Rome, Italy

01/01/2016 - CURRENT

Roaster Expert

World Health Organization - Expert Roaster

I have been chosen as one of JEE evaluators, for the first time in Ethiopia (March 2016), where I assessed the IHR capacity for the areas of antimicrobial resistance, immunization, workforce development and I was co- leader of the assessment mission.

Key achievements

- Proposal writing, in order to provide the Country with key actions for the area evaluated;
- Project Management, in order to monitor the performance of health-related projects and to evaluate the consistency of the assessed reality with pre-established indicators;
- Reporting, in order to ensure that documentation is regularly submitted, in line with the Donor/Implementer standards;
- Collection and representation of data of health processes and outcomes , in the health clusters as well as in other technical meetings.
- Leadership skills
- Assessment capacity
- Global Health security knowledge and communication

The Joint External Evaluation - International Health Regulations (IHR, 2005) is intended to assess country capacity to prevent, detect, and rapidly respond to public health threats independently of whether they are naturally occurring, deliberate, or accidental. The purpose of the external evaluation process is to measure country specific status and progress in achieving these targets. This will require a sustainable and flexible process to allow for additional countries and regular evaluation visits. Once the external evaluation is conducted, it will be established a baseline measurement of the country's capacity and capabilities.

Subsequent evaluations are necessary to identify the accomplished progress and to ensure these improvements are sustainable. The external evaluation allows countries to identify the most urgent needs within their health security system, to prioritize opportunities for enhanced preparedness, response and action, and to engage with current and prospective donors and partners to target resources effectively.

Geneve, Switzerland

01/09/2017 – 31/03/2018

Project manager and scientific advisor

VIHTALI - "Università Cattolica del Sacro Cuore" Spin Off

Management and coordination of projects focused on:

- Health services research,
- Value in Healthcare,
- Epidemiology
- Leadership in medicine,
- Population Medicine,
- Health system construction,
- HTA,
- Chronic Diseases,
- Clinical Pathways.

Research activities such as collection and production of evidence, cost-effectiveness evaluation, organization and impact assessment to technically support these projects.

Rome, Italy

01/06/2016 – 31/12/2017

Scientific Advisor

Fondazione Italia Camp

- Advisor for Early HTA implementation,
- Multi-criteria Decision Analysis (MCDA) Model development for early HTA (public health, scientific evaluation, patent implementation)
- Application of MCDA for: Istituto Nazionale Tumori (Milano), Istituto cardiologico Monzino (Milano), IRCCS IRST (Meldola - FC), CROB (Rionero - PZ)
- Scientific Technology Assessment,
- Scientific due diligence of patents' portfolio

Rome, Italy

01/06/2017 – 31/07/2017

Support in organizational setting for the Summer School on Refugee and Migrant Health, 10-14 July 2017

World Health Organization – Euro EU/PCR Policy and governance for Health and Well Being

- Public Health,
- Health Organization,
- Migrant Health,
- Health Inequalities

Support to the WHO "Public Health and Migration Program" in:

- Assisting the MIG Programme in organizing and developing the programme for a study tour to Italy by authorities from Greece, Serbia and Turkey;
- Assisting the MIG Programme in organizing a study tour to Turkey for Italian local authorities;
- Monitoring the migration and health situation and providing a country monthly report and analyses for Italy;
- Producing reports and scientific papers.
- Developing and implementing a plan with regards to all logistical arrangements for the "School on Refugee and Migrant Health" organized by the above mentioned program;
- Facilitating continuous communication among key people involved in the planning of the Summer School (WHO/EURO, Sicily Region, etc) through in person meeting and teleconferences when needed,
- Liaising with local administrator and all administrative arrangements,

- Being responsible in liaison with the Ministry of Health and the Regional Health Authority for the organization.

Siracusa, Italy

07/07/2012 – 28/06/2017

Resident doctor in Hygiene and Preventive Medicine

Department of Public Health – Teaching Hospital “A. Gemelli”

During my residency I was involved in different projects, research activities and field activities related to:

- Clinical Governance (with particular reference to risk management), Healthcare management
- HTA (comparison of products, epidemiological assessment)
- Population medicine
- Hygiene and Preventive Medicine, health surveillance of infectious diseases
- Health promotion (with particular reference to vaccination)
- Public Health campaign (with particular reference to vaccination)

Rome, Italy

01/03/2016 – 15/06/2016

PRECeDI (Personalized PREvention of Chronic Diseases) Researcher Marie Skłodowska-Curie actions - Research Fellowship Programme

Better Value Healthcare Researcher

During the fellowship I was involved in the creation of clinical pathways with a public health genomic approach.

Research, data collection and data analysis on the following topics:

- Public Health,
- Public Health genomics,
- Personalized prevention,
- Population Medicine,
- Health system construction,
- Chronic Diseases,
- Clinical Pathways.

Oxford

01/08/2015 – 28/02/2016

Intern

Italian Ministry of Health – General Directory for Prevention

- Participation in the drafting process of the first National Action *Plan* on Antimicrobial Resistance (PNCAR) 2017-2020
- Participation in the drafting process of the *Italian National Immunization Plan* (NIP) 2017-2019
- Data collection and data analysis related to immunization
- Analysis of the Regional Preventive Plans,
- Technical support to Vaccination and AMR Unit,
- Health policies,
- Public Health,
- Global health,
- Epidemiology
- International Health Security Preparedness
- Technical support for immunization and AMR strategies
- International Health Regulation

Rome, Italy

01/10/2014 – 01/01/2016

Commissioner Technical Staff

Italian National Public Health Institute

- Coordination of the renovation on the Institute
- Functional analysis of the technical area

Technical Support in

- Public Health, health care planning, organization and evaluation;

Rome, Italy

01/01/2015 – 31/12/2015

Global Health Security Agenda Expert

Italian Ministry of Health

- Health policies,
- Public Health,
- Global health,
- International Health Security,
- Vaccination,
- Antimicrobial Resistance,
- Emergency Operations Centers,
- Linking Public Health and Law Enforcement

Rome, Italy

01/01/2015 – 01/12/2015

Global Health Security Agenda Expert

Ministry of Health

- Co-leader of the GHSA Mission in Peru (Lima, January, 2015)
- Expert for the Italian Ministry of Health appointed for the following area:
 - Immunization
 - Antimicrobial resistance
 - Workforce development
 - Biosecurity and biosafety
- Appointed expert for the Mission in Portugal (Lisbon, March 2015) and Ukraine (Joint mission with WHO, Kiev, November 2015).

Rome, Italy

01/10/2013 – 01/10/2014

Data analyst, Consultant and Social Media strategy

National Observatory on Health Status in Italian Regions –
"Osservasalute Report"

- Primary Care (with particular reference to Primary Care),
- Data analysis, scientific writing and review,
- tutoring of new collaborators; Presentation of data and results at National level;
- promoter of new international projects and partnerships;
- Editing of contents focused on primary health care and regional healthcare systems comparison

Rome, Italy

01/10/2012 – 01/10/2014

Clinical Governance Unit Assistant

"A. Gemelli" Teaching Hospital

- Health policies,
- Public Health,
- Health care planning, organization and evaluation;
- Clinical Governance

Rome, Italy

HONOURS AND AWARDS

Honours and awards

- Vice chair of Italian Young Doctor Association (since 2017)
- Member of President Cabinet of Italian Young Doctor Association (since 2013)

ORGANISATIONAL SKILLS

Organisational skills

- Leadership (former Deputy Chair of a national young medical doctor association of more than 3.500 members)
- Analysis and synthesis of problems, problem solving (experience gained as public health professional and young secretary of Italian Association of Medical Managers - SIMM);
- Strong dynamism and adaptability;
- Capacity to innovate and make original proposals;

COMMUNICATION AND INTERPERSONAL SKILLS

Communication and interpersonal skills

Good communication skills gained through my experience as public health professional, in particular:

- Public speaking, verbal and non-verbal communication, effective speaking
- Public reporting
- Flexible communication

Web 2.0 and health communication (health promotion, public health campaign and health policy advocacy related to the activity of different stakeholders and institutions)

JOB-RELATED SKILLS

Job-related skills

- Good command of project management tools (currently leading several projects in public health)
- Capable of health reporting (GHSR Report, Italian Country Report)
- Capable of health strategy (health promotion)

PRESENTATIONS

● Presentations

- Health security: selected approaches from the global to the country levels. The JEE process. Health Seminar: "Agenda 2030: SDGs Implementation for health – creating synergies across sectors"
- European Commission - 28th September 2016
- "CIVES: Città Vive Eque Sane" Health Policies and Urban Health Health Inequalities, HealthY Cities, Prevention
- Università Cattolica del Sacro Cuore - Aprile 2015
- "BREATHs: building research and alliance for respiratory tract diseases"
- Università Cattolica del Sacro Cuore Giugno – Novembre 2014
- "Clinical Practice & Clinical Governance per l'ipertensione arteriosa" Corso nazionale a Medici di Medicina Generale (Maggio 2013)
- Università Cattolica del Sacro Cuore Maggio 2013
